

PIHER - TCP CLAMP FOR WELDING TABLE | SET 28MM

~~€306,03~~ **€268,84 (excl. VAT)**

This composite set from PIHER includes three welding table clamps, a 90° support, pipe clamping accessory and a FREE welding magnet.

The set is for use on tables with 16mm or 28mm holes by using the supplied clamping bushes.

Designed with versatility to solve any clamping need on a welding table. Adaptable to any standard diameter. They feature an ergonomic PIHER handle with 3D joint position. Inside is a piston system with protected double fine screw thread. Horizontal and vertical clamping with a force of up to 350 kg. Adjustable up to 360 °. At the bottom there is a mobile stop that allows the shaft to be completely hidden under the table. The pressure surface has a mounting hole of M6 for mounting accessories.
