

PLUNGING ROUND-OVER BIT R12,7 (Z=2) SHANK 8MM - Ø35MM

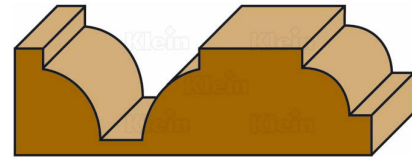

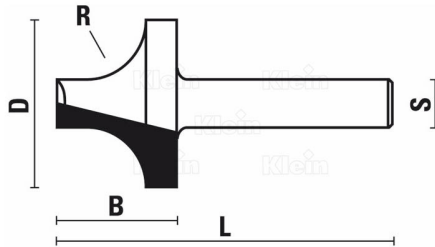

€47,40 (excl. VAT)

Quarter-circle concave radius cutter to easily and quickly round corners. The bit can also be used to create a flat-bottom groove between two quarter-round shapes. Increasing the working depth, you will obtain the classical "quarter-round" typical of dining table edges. Thanks to the high quality carbide cutting edges, this bit can be used efficiently on most types of wood.
