

PNEUMATIC DRILLING MACHINE FOR LINE BORING LINE DRILLER TT13LDPN

€2 .045,45 (excl. VAT)

The Line Driller is the affordable solution for your line boring, with a 2 HP induction motor and a module of 13 bores at a time. Pneumatic operation with foot pedal.

SKU: 0LD13PNE

GALERIJAFBEELDINGEN

The Line Driller is the affordable solution for your line boring!

The machine has a powerful 2 HP induction motor with a module of 13 bores at a time, each with a spacing of 32 mm, with pneumatic operation with foot pedal. The aluminum guides have convenient flip stops with a fine adjustment for setting the edge distance. 2 positioning pins are also provided, so you can work quickly, as well as 2 clamping springs that hold the plate in place during drilling. The boring depth can be adjusted. A module (adapter) for hinge boring (Blum, Hettich or Salice), which can easily be installed, is also available as an option.

As a standard, the machine comes with a floor stand and a large 800 x 400 mm work table.

PRODUCT INFORMATION

- Powerful 2 HP induction motor
- Rotation speed of spindle: 2850 rpm
- Pneumatic operation with pedal
- Module of 13 drill heads (7 right + 6 left)
- Aluminum guides, equipped with handy flip stops with fine adjustment
- Easy-to-assemble module for hinge boring
- Floor stand with large work surface (800 x 400 mm) at the top
- Adjustable boring depth (up to 32 mm)
- The machine is supplied **without** the adapter for hinge boring
 - Drills are **not** included

- Adapter for hinge boring (Blum, Hettich or Salice) **(optional)**
