

RADIUS TRIMMER FR156N

€281,94 (excl. VAT)

Radius trimmer, for trimming edges of PVC and veneer. Suitable for materials with a thickness between 2mm and 3mm. Using the right bits the machine can also process thicker material. Thanks to this machine you can trim the four sides of a panel in one passage, both for chamfering and rounding. Ideal for the manufacture of kitchen furniture or others containing the same type of edge. Standard delivery with a router bit in high-quality carbide and radius 2 for making round edges. Including collet Ø8mm.

Motor equipped with electronic speed control. Using the automatic brake on the ball bearing, you avoid damaging edges or panels. Use the optional CA56U attachment for perfect stability on flat surfaces.
