

ROUTER BIT ADAPTOR FOR TT3085/4

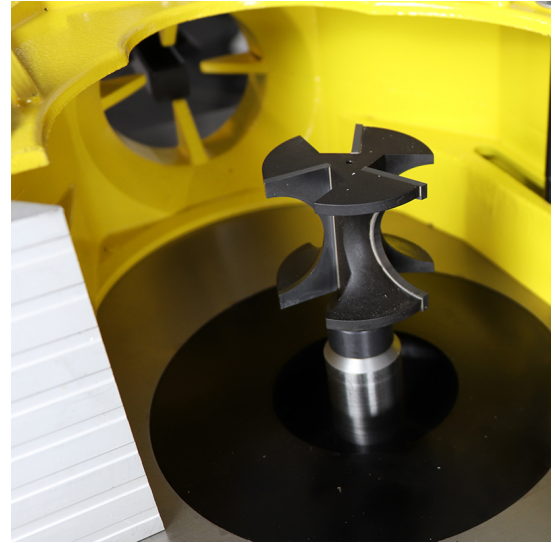

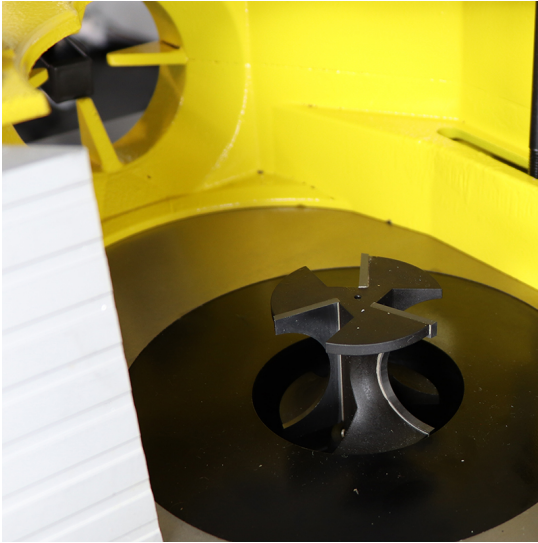

€70,24 (excl. VAT)

This adaptor is specifically designed to allow router bits to be used on your spindle moulder TT3085/4. Because this adaptor sinks under the work table, your router bit is at the same height as the table. Thus, no further attachments are required for passing the cutter with your workpiece. Combine with the right collet for your router bit. Collets available with Ø8, 10 or 12mm.

SKU: 3FR3ST3085AD
