

SAFETY GUIDE FOR SPINDLE MOULDER TT100/4 & TT100/4TI

€136,36 (excl. VAT)

Safety guide to be installed on the Spindle TT100/4 or TT100/4TI from Tendotools. This special guide offers you extra safety during your milling work. Using the movable rails, which move independently of each other, you can completely close off the routing hole. As a result, your hands are better protected than when working with a conventional guide.
