SAW BLADE FOR CONSTRUCTION Ø300MM – BORE 30MM

€96,00 (excl. VAT)

Saw blade with 20 teeth

Construction saw blade with 'flat angle' teeth and a wide back for improved support of the tooth. With few teeth for a rough and fast cut of the wood. Equipped with teeth in high quality carbide (widia). Suitable for use on pallet wood or wood with remnants of nails,... Thanks to the wide back, the teeth are less likely to be damaged if you hit nails or other debris in the wood during sawing. Ideal for construction site saws or tilting log saws. Made in Germany, take advantage of the extremely solid German quality.
