

SAW BLADE FOR RADIAL ARM SAWS Ø300MM - BORE 30MM

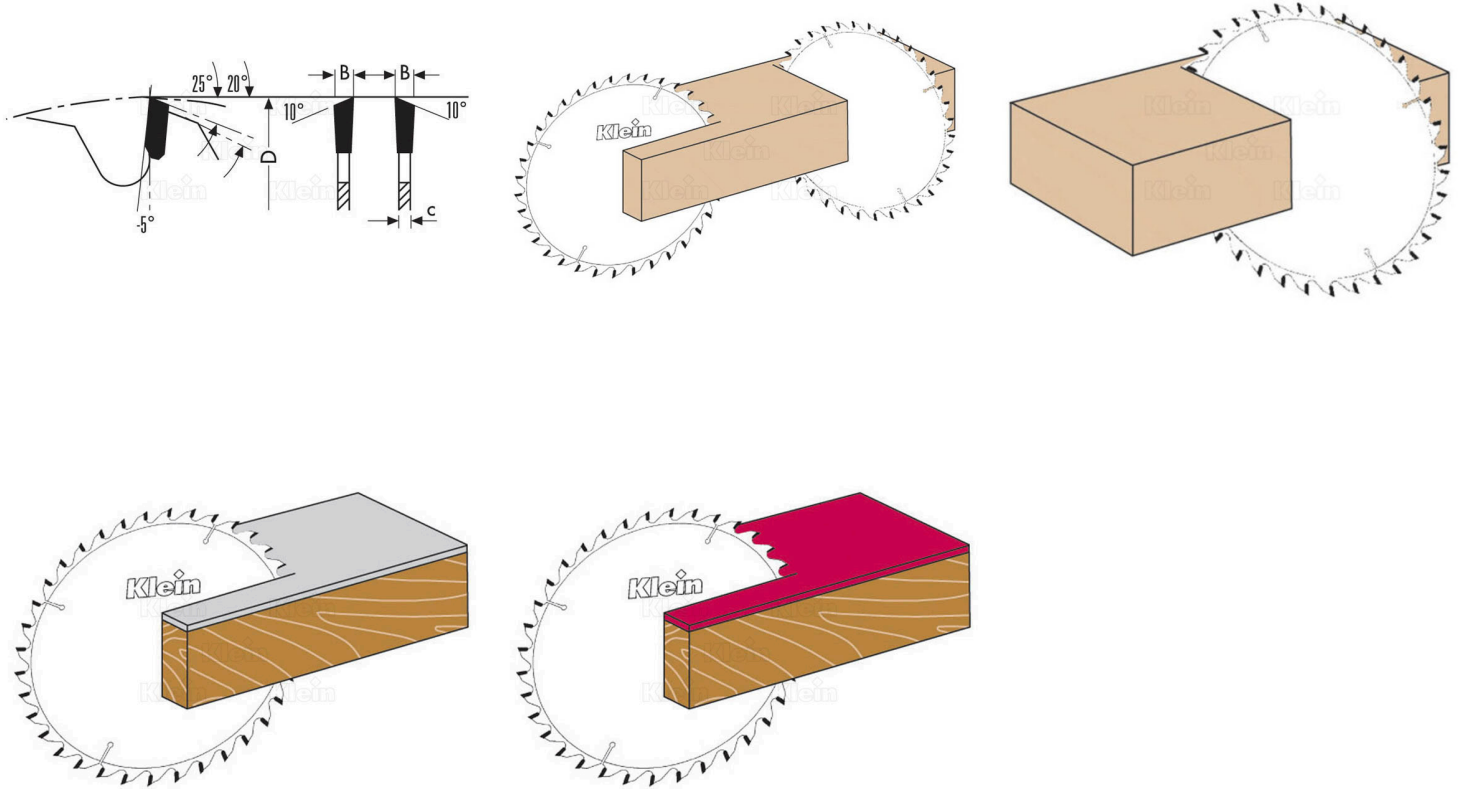

€107,10 (excl. VAT)

Saw blade with 36 teeth

Saw blade with alternate WZ top bevel teeth, suited for cutting across grain of soft wood, hard wood, aluminium-wood profiles or plastic-wood profiles. No noise saw blades for use on radial arm saws or table saws. Make sure to use the right amount of teeth to achieve optimal results of your project. A low number of teeth is suited for fast-paced and rough sawing.
