

SCROLL SAW TT456E - 230V

€264,46 €224,79 (excl. VAT)

The scroll saw TT456E is a compact saw with parallel action and infinitely variable speed. Use this scroll saw for a wide range of applications in fine detail sawing. Suitable for solid wood as well as for sheet metal or even non-ferrous metals. Indicated to use the higher speed of the machine for soft wood. The lower speed is perfect for solid wood, harder plastics and soft metals. The worktop can be mitered and has a translucent middle surface. The saw is equipped with an air blower to blow away the dust while working. It is possible to mount saw ribbons both with and without a pin on this machine.

Compared to the model TT406E, this machine has a number of important advantages. This scroll saw is equipped with a more powerful motor, larger capacity and a fully cast iron worktop. Thanks to the increased stability and reduced vibrations this worktop offers you, you can work even more precisely and comfortably.
