

SET (12) SCROLL SAW BLADE CARBON STEEL 127MM (18,5 TPI) - WITH PIN - HOOK TEETH

€8,26 (excl. VAT)

Scroll saw blade with pin with length 127mm and 7 TPI and HOOK tooth for a fast and straight cut. This scroll saw blade in hardened steel "Flexback" is extremely suitable for use on wood or chipboard. The teeth of the saw blade were given an additional heat treatment for increased hardness. This keeps the band very supple and increases your cutting comfort thanks to the hardness of the teeth. Available per set of 12 saw ribbons. Extremely suitable for use on our scroll saws TT406E or TT456E.
