

SET (2) TRANSPORT HANDLES PT81U

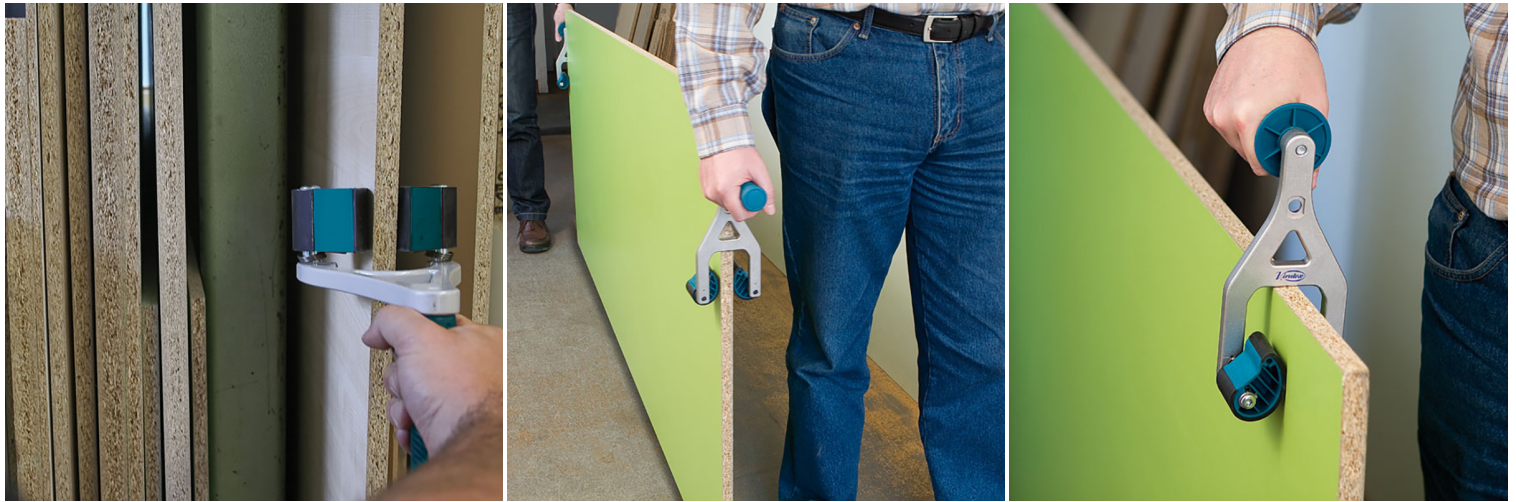

€108,09 (excl. VAT)

With its ergonomic shape, this handle helps you to easily transport panels in different materials. The handle has three basic functions: pulling, carrying or lifting. Thanks to its aluminium design, this handle is very strong and robust. The maximum load is 70kg. Suitable for panels between 0mm and 46mm thick.

Optionally, two clamps are available to be placed on the handle.
