

SILICONE MASTER - SILICONE FINISHING SET (9-PIECE)

€17,00 (excl. VAT)

Making a silicone joint with a perfect finish is not always easy. Just think: behind or along a stove, tap, side of a window... But that's where Silicone Master® distinguishes itself from other products. Many professional users notice that applying the silicone seal with Silicone Master® ensures a **smoother and 100% perfect end result.**

9 different finishing profiles. Supplied with handy storage box.

SKU: SM-SILICON

GALERIJAFBEELDINGEN

Making a silicone joint with a perfect finish is not always easy. Just think: behind or along a stove, tap, side of a window... But that's where Silicone Master® distinguishes itself from other products. Many professional users notice that finishing the silicone seal with Silicone Master® ensures a **smoother and 100% perfect end result**. But even users who have never worked with silicone before can now obtain a perfect finish thanks to Silicone Master®. Thanks to its 9 different profiles, you can choose the finish to your liking, while the ergonomic handle ensures that you can effortlessly apply a perfect silicone seal even in hard-to-reach places. After research in its own laboratories, Silicone Master® has found the right formula for manufacturing the Ultra TPV profiles. This correct hardness and elasticity ensures that you always get the exact same finishing profile, even

when less or more pressure is applied to the ergonomic handle and even when you stop in the middle of the work and then pick it up again.

Silicone Master® comes standard with a handy storage box for the 9 different profiles.
