

SLOT CUTTER (Z=3) BORE 7,94MM - Ø47,6MM

€19,90 - €21,80 (excl. VAT)

These slot cutters are suitable for a wide range of applications. Quickly and easily cut the right pin and groove connections for your project. The different cutting lengths of the cutters ensure that you always get the correct thickness of your pins or slots. Thanks to its cutting edges in high-quality carbide (widia), this cutter cuts through most types of wood without any problems.

Available in different cutting lengths between 1.6mm and 6.4mm.

SKU: N/A
