

SPINDLE MOULDER TT1003T

€6 .700,00 (excl. VAT)

Powerful spindle moulder from the Revolution range of professional woodworking machines. The TT1003T has a stable, cast iron work table that rests on a sturdy, steel chassis and has a three-phase 400V motor that delivers 7.5 HP. Equipped with a tilting spindle. With its six speeds, the machine can handle a wide range of applications. Suitable for standard and heavy duty milling work, routing pins, rebating,... The speed is easy to set and has a clear digital readout. With the help of our accessories, cutters and adaptors, the possibilities of this machine are endless. Optionally available with a heavy-duty milling carriage, pen cap and table and safety guides.

SKU: REFR1003T4

Powerful spindle moulder from the Revolution range of professional woodworking machines. The TT1003T has a stable, cast iron work table that rests on a sturdy, steel chassis and has a three-phase 400V motor that delivers 7.5 HP. Equipped with a tilting spindle. With its six speeds, the machine can handle a wide range of applications. Suitable for standard and heavy duty milling work, routing pins, rebating,... The speed is easy to set and has a clear digital readout. With the help of our accessories, cutters and adaptors, the possibilities of this machine are endless.

The TT1003T is equipped with an electronic brake for increased safety while working. The spindle has an additional blocking system so that you can easily and safely change the milling tool. Equipped with a connection for dust extraction (Ø 120 mm) at the top and bottom. The 'floating' control panel can always be placed in the most comfortable position with the help of the movable support. Optionally available with a heavy-duty milling carriage, pen cap and table and safety guides.
