

SPINDLE MOULDER TT800IT

€3 .998,00 (excl. VAT)

Powerful spindle moulder from the Revolution range of professional woodworking machines. The TT800IT has a stable, cast iron work table that rests on a sturdy, steel chassis and has a three-phase 400V motor that delivers 5.5 HP. Equipped with a tilting spindle. With its four speeds, the machine can handle a wide range of applications. Suitable for standard and heavy duty milling work, routing pins, rebating,... The speed is easy to set and has a clear digital readout. Because of its lowest speed of 1800rpm, this spindle moulder is also suitable for sanding work. With the help of our accessories, cutters and adaptors, the possibilities of this machine are endless.

Optionally available with a heavy duty sliding table (length 1500mm) and safety guides.
