

STRAIGHT ROUTER BIT FOR VIRUTEX PL11 (Z=2) SHANK 8MM - Ø12MM

€45,45 (excl. VAT)

This straight cutter is suitable for making straight grooves for box joints. Use these joints to construct cabinet drawers, coffins, cases, or other types of furniture. Thanks to the hard metal (carbide) cutting edges, a clean and accurate result of all your milling and woodworking projects is guaranteed.

This bit is ref. 1140060 to use with the dovetailing attachment PL11 from Virutex. Use this bit with the mould with spacing of 26mm.
