

STRAIGHT TRIMMING BIT WITH BALL BEARING (Z=2) SHANK 8MM - Ø9,5MM LONG

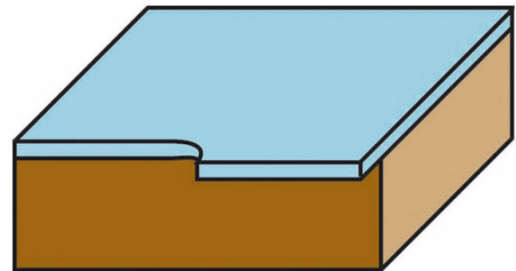

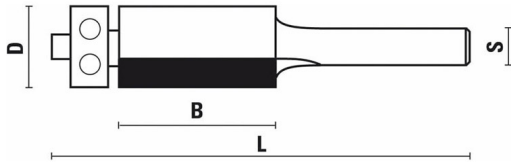

€25,40 (excl. VAT)

Klein® trimming bits with straight cut are suitable for smooth and well-finished edges on melamine and veneered panels. The ball bearing, having the same diameter of the cutters, trims any overlap leaving a flat and smooth edge. Two flutes provide fast cutting and good chipping ejection.

SKU: KL-C120095R

GALERIJAFBEELDINGEN

Klein® trimming bits with straight cut are suitable for smooth and well-finished edges on melamine and veneered panels. The ball bearing, having the same diameter of the cutters, trims any overlap leaving a flat and smooth edge. Two flutes provide fast cutting and good chipping ejection.
