GALERIJAFBEELDINGEN

Universal saw blade with alternate top bevel teeth for cutting of different types of wood, laminated materials, MDF, double sided veneer panels or particle board in stack. For panel sizing machines and tabel saws. Make sure to use the right amount of teeth to achieve optimal results of your project. A low number of teeth is suited for fast-paced and rough sawing. A high number of teeth calls for a lower operating speed but guarantees a clean cut. Available with different number of teeth.

### PRODUCT INFORMATION

- Fine cut HW saw blade
- Alternate top bevel teeth
  - For soft or hard wood
- For laminated materials or double sided veneer panels
- For particle board in stack
