

VERTICAL PANEL SAWING MACHINE VERTICUT TT1225 WPM

€8 .884,29 (excl. VAT)

The Verticut TT1225 WPM is a very budget-friendly and space-saving vertical panel sawing machine for panels of 2500 x 1220 mm.

SKU: 0VC1225WPM

GALERIJAFBEELDINGEN

The Verticut TT1225 WPM is a space-saving vertical panel saw for panels of 2500 x 1220 mm.

This is a very budget-friendly machine for all your sawing needs. The professional weighted support arm can be moved horizontally and the saw on the support arm is vertically adjustable. This makes the machine unique in its kind, offering the best value for money on the market.

It has a fully welded frame with precision-hardened runners at the bottom and top. The heavy duty support arm/mast runs very smoothly thanks to the wear-resistant bar guide with double ball bearings. A height aid is provided for processing small sheets, saving you time and preventing unnecessary strain on your back.

The red horizontal panel supports can be easily adjusted manually with the convenient elevator arm, to avoid sawing them in when sawing horizontally. The support at the bottom on which the panel rests is equipped with

wear-resistant plastic listels.

It also features easily adjustable flip stops and an extraction hose.

This panel saw is also available for 3200 x 1600 mm panels.

PRODUCT INFORMATION

- Horizontal and vertical course
 - High-quality robust frame
- Wear-resistant bar guide with double ball bearings
- Manual height adjustment with large elevator arm
