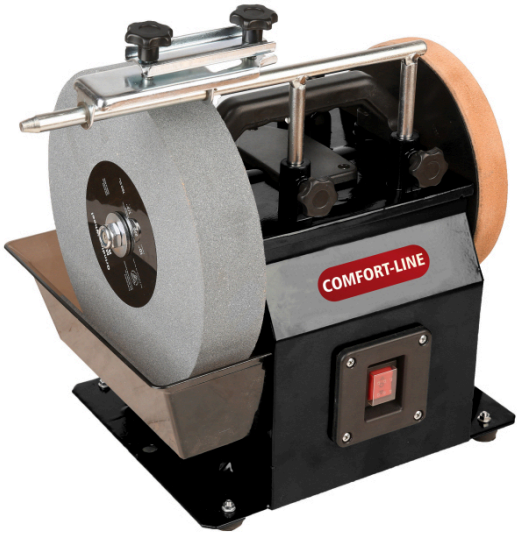
WET SHARPENER TT250/50



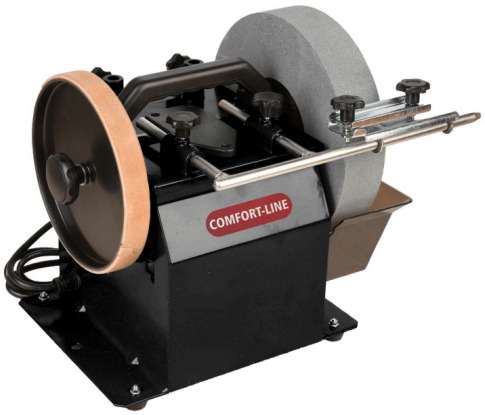
€247,11 (excl. VAT)

With a 254 mm by 50 mm wet grinding stone with grain 220 and a leather wet grinding wheel Ø 200 mm, you have everything you need to revive old dull tools and knives. The heavy-duty motor spins the wheels at 115 rpm for maximum precision during operation. Once the edge is nice and sharp, polish and finish the surface on the leather wheel. Give dull knives, wood chisels, cutting tools, scissors, screwdrivers, lathe tools, ... a second life.

Reverse the direction of rotation at the push of a button to meet the needs of any task. The universal support can be adjusted both horizontally and vertically, allowing jigs and other accessories to be used with the machine.

SKU: 0SH250/50

GALERIJAFBEELDINGEN



With a 254 mm by 50 mm 220 grit wet grinding stone and a Ø 200 mm leather wet wheel, you have everything you need to bring old dull tools and knives back to life. The heavy-duty motor spins the wheels at 115 rpm for maximum precision during operation. Once the edge is nice and sharp, polish and finish the surface on the leather wheel. Give dull knives, wood chisels, cutting tools, scissors, screwdrivers, lathe tools, ... a second life.

Reverse the direction of rotation at the push of a button to meet the needs of any task. The universal support can be adjusted both horizontally and vertically, allowing jigs and other accessories to be used with the machine.

The TT250/50 wet and dry sharpener also includes an angle guide, a height-adjustable water tank and a jig for planer blades and knives. The built-in carrying handle makes transport easier than ever, while the mounting brackets combined with the sturdy base prevent walking and wobbling during use.
