BARVEX WOOD LUBRICANT 400 ML

€12,40 (excl. VAT)

Wood lubricant for machine surfaces and machine tables. Significantly improves the sliding of wood over machines in steel, cast iron or aluminium. Ideal for planers, routers, saw tables, etc. Also a great efficiency for sliding wood on wood (wooden guides, extension tables, drawers, etc.). **Silicone-free.** Can be used on all types of wood without leaving marks!

Advantages: does not damage glued joints, increases safety while working, increases quality of finish, leaves no traces.
Can also be used to restore shine to plastic.
