

WOODEN WORKBENCH SCHOOL SERIES HYDRAULICALLY ADJUSTABLE 720-930MM

€2 .582,63 (excl. VAT)

Solid workbench with a solid beech work surface of 80mm thickness. The workbench was developed specifically for use in schools. For this purpose, the workbench is equipped with four workstations, each with its own vice. The bench rests on a sturdy metal base that is hydraulically adjustable in height (720mm-930mm). This can easily be done by one person using the lever. This workbench can therefore be used by both children and adults. The standard package of this workbench includes four pairs of bench dogs (Ø19mm) in full steel. The work surface is already oiled upon delivery.

On request, this workbench is also available for left-handers. Please let us know when you place your order so that we can provide you with a custom-made workbench.

SKU: PIN-SCHOOL1/hydr/19

GALERIJAFBEELDINGEN

Solid workbench with a solid beech work surface of 80mm thickness. The workbench was developed specifically for use in schools. For this purpose, the workbench is equipped with four workstations, each with its own vice.

The bench rests on a sturdy metal base that is hydraulically height adjustable. This special metal base is controlled by a central, non-electric, hydraulic pump. The pump itself is easy to operate by one person using the lever. The adjustable height varies between 720mm and 930mm. This workbench can therefore be used by both children and adults. The standard package of this workbench includes four pairs of bench dogs (Ø19mm) in full steel. The School Series workbenches are also available with a wooden base of fixed working height. The work surface is already oiled upon delivery.

On request, this workbench is also available for left-handers. Please let us know when you place your order so that we can provide you with a custom-made workbench.
